

Regulatory statements

-
- Not all models are available in all regions. If certain safety regulations are required for specific region, BenQ ensures that products available in that region are complied with the requested regulations.
 - This document provides country- and region-specific regulatory notices and compliance information for BenQ LCD monitors. Some of these notices may not apply to your product.

Accessibility Requirements for Rehabilitation Act of 1973, Section 508

BenQ's commitment to accessible products allows us to support government in making accessible technology choices. The product is compliant with Section 508 guidelines by including the assistive features as below:

- The product has colored "Power" indicators. Refer to the user manual for color definitions. While the monitor is in standby or sleep mode, it uses less than 2 watts of electricity.
- The product has a variety of settings of pre-programmed flicker-free timing to make the screen shown on the monitor readily accessible. The default timing setting is automatically turned on every time the monitor is powered up, and thus reduces the hassle of user intervention.
- The product has options for brightness and contrast adjustments that text and images could be displayed differently to meet the demands of the visually impaired. Other similar adjustments are also available by using the On-Screen Display (OSD) controls on the products.
- The product includes user-selectable color controls, such as color temperature selections (Monitor: 5800K, 6500K and 9300K, Projector: 5500K, 6500K, 7500K and 9300K), with a wide range of contrast levels.
- The product usually has one or two speakers for audio performance which allow users (including hearing impaired) to interact with the computer systems connected. Speaker controls are typically located on the front-panel.
- Firmware of the product contains unique product information that helps computer systems to identify BenQ products and activate their Plug-and-Play function when connected.
- The product is compatible with the PC99 standard. For example, connectors are color-coded to help users easily connecting products to computer systems correctly.
- Some models of BenQ's monitors and projectors contain additional USB and DVI ports for connection to more devices such as a special headphone to assist the hearing impaired.
- BenQ's customer service provides answers and assistance to all our customers through phone calls, facsimiles, e-mails, or websites.
- The product comes with user manuals, which are available on the official local website. Visit the local website from www.BenQ.com or zowie.beng.com (for e-Sports monitors) > **Support** > **Download & FAQ** > the purchased model > the **User Manual** tab to access the user manuals. Other types of documents may be available upon requests.

FCC Statements

Federal Communications Commission (FCC) Notice (U.S. Only)
WARNING: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference.
- This device must accept any interference received including interference that may cause undesired operation.

-
- CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
 - (U. S. Only) Visit www.beng.com/en-us or zowie.beng.com (for e-Sports monitors) > **Support** > **Download & FAQ** > the purchased model > the **User Manual** tab to access the SDoC (Supplier's Declaration of Conformity) document. If multiple SDoC documents are available, refer to the one that its **Model name** is identical with the **Model ID** on the rating label of the product. You may not find your product's SDoC document online as it was not required at the time the product was manufactured. However, it does not change the fact that the product has been tested to comply with FCC standards, as indicated by the FCC logo on the product or on the rating label.

Energy Star (applicable only for models bearing the Energy Star logo)

This product qualifies for ENERGY STAR® in the factory default (Home configuration) setting. Changing the factory default settings or enabling other features may increase power consumption that could exceed the limits necessary to qualify for ENERGY STAR®. Refer to ENERGYSTAR.gov (www.energystar.gov) for more information on the ENERGY STAR® program.

Visit the local website from www.BenQ.com or zowie.beng.com (for e-Sports monitors) and refer to the "Specifications" tab for more regulation information.

Директива ЕС об утилизации электрического и электронного оборудования

Утилизация отходов электрического и электронного оборудования и (или) батареек пользователями, проживающими в частных домовладениях в Европейском Союзе.

Данная маркировка на товаре или его упаковке означает, что данный товар не должен утилизироваться вместе с другими бытовыми отходами. Необходимо утилизировать обработанное оборудование (или) батарейки путем их передачи в специальный пункт приема для переработки обработанного электрического или электронного оборудования и (или) батареек. Более подробную информацию об утилизации оборудования и (или) батареек можно получить в местном муниципальном управлении, организации по утилизации бытовых отходов или в магазине, где был приобретен товар. Утилизация материалов поможет сохранить природные ресурсы и предотвратить потенциальное негативное влияние на окружающую среду и здоровье людей.
